

ANDIS® TRIMMER BLADE GUIDE

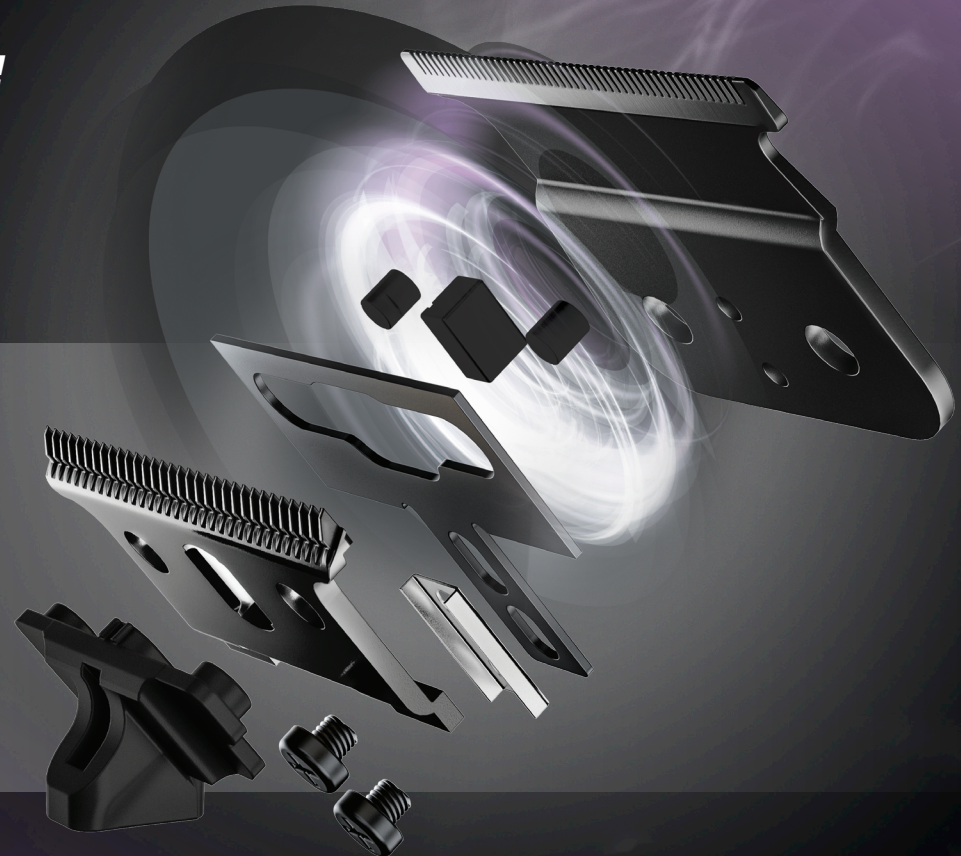

M-FORCE™ EXCLUSIVELY at Andis!

The industry's first and only magnetic tension system for more power and cutting precision.

M-Force Technology Provides:

- Consistent tension across the blade and more power for the ultimate cut
- Smoother, quieter cutting with less wear and tear on components
- More consistent blade speed and temperature

GTX-EXO®

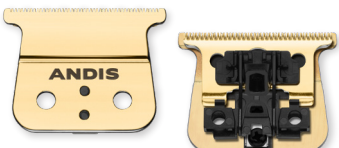

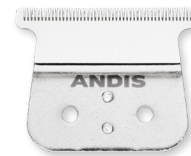

USED ON:
GTX-EXO Black Label
GTX-EXO

#562009

- Deep-tooth GTX-Z blade design feeds more hair; preset with tighter gap for precision detailing
- Custom black coating for corrosion resistance
- For trimmer model: ORL-S

GTX-EXO	CARBON-STEEL SHALLOW-TOOTH GTX-Z BLADE	<ul style="list-style-type: none"> Shallow-tooth GTX-Z blade design for close-cutting, preset with tighter gap for precision detailing Custom gold coating for corrosion resistance For trimmer model: ORL-S 	CORDLESS T-OUTLINER	CARBON-STEEL T-BLADE	<ul style="list-style-type: none"> The original close-cutting T-blade design; perfect for detailing and tight spaces Dependable, long life blade that stays sharp For trimmer model: ORL
