IMPOSSIBLE- TO-IGNORE

PACKAGING

In a world of visual and information overload, newly branded Andis packaging provides clean, elegant design with messaging that pushes past the noise to immediately capture your focus. Our modular packaging was created to tell a layered story, with product visuals and features.

Simplified feature/benefit messaging on the front of the package helps provide aid during the Buyer Journey Process, while call-outs on side and back panels provide deeper product education for smart, informed purchasing decisions.

MAGNETIC MOTORS

Reliable Power & High Blade Speed

Magnetic motors run at high speed resulting in smooth cuts. Light textures of hair will feed and cut well with magnetic motor clippers. Less moving parts make these simple, reliable and the longest lasting of all the motors.

ROTARY MOTORS

High Power & High Blade Speed

Rotary motors have an equal amount of power and blade speed. They are also the only motor available with multiple speeds. Their balance between power, speed, size and weight makes them extremely versatile and perfect for heavy-duty cutting.
